

# CISO Toolkit – Security Awareness

## A CISO-developed resource to empower your team.

### *Scroll down for links to Guidance Document(s) and Resources*

The CISO-developed resource toolkit on Security Awareness provides CISOs with engaging and informative training materials to educate employees about security risks and best practices. This toolkit empowers CISOs to raise security awareness across the organization, preventing social engineering attacks, phishing scams, and other security incidents caused by human error.

## **Toolkit Summary**

**ESTIMATED LABOR COST SAVINGS: \$15,000 - \$30,000**

(Based on a range between \$75-\$150 per hour for a single FTE)

Title	Document Format	Document Type

## **The Value of the Toolkit**

The Security Awareness Resource Toolkit is an indispensable asset for CISOs and their teams, offering the following key benefits:

- **Comprehensive Coverage:** Addresses all aspects of security awareness, from developing security awareness programs to training employees and conducting phishing campaigns.

- **Practical Usability:** Provides templates and checklists for developing security awareness programs, creating training materials, and conducting phishing campaigns.
- **Enhanced Compliance:** Helps organizations meet regulatory requirements for security awareness training.
- **Strategic Insights:** Guides on emerging security awareness trends and challenges, such as social engineering attacks and insider threats.
- **Increased Collaboration:** Fosters alignment between IT teams, security teams, and HR teams, ensuring a comprehensive approach to security awareness.
